

Winter driving tips

Jumpstarting

Jumpstarting a vehicle that will not start can be risky business. To assure your battery is in good shape:

1. Check the fluid level.
2. Keep posts and connections free of acid corrosion.
3. Make sure connections and hold-down clamps are tight and clean.

Winter driving and walking

Plan ahead and use common sense. Slow down. Drive defensively. Weather conditions can change road conditions very quickly. Maintenance and emergency equipment may be more prevalent but moving slower or faster than traffic. Dress appropriately for the weather. Wear appropriate winter footwear to avoid slips/falls on the snow and/or ice. Have a winter survival kit in your vehicle. Watch for changes on walkways; ice may not be noticed and cause you to slip and fall.

MCC personnel work to make the driveways, parking lots and walkways clear of snow and ice and keep them safe. Please drive and walk carefully.

Inclement weather procedures

During inclement weather conditions, classes or other College activities may have to be cancelled or delayed. Because weather conditions may vary within the College area, it may be necessary to cancel or delay some classes or activities while other locations continue to operate.

Delay of classes

Delay of classes' means that classes will start later than normal. The delayed class time will be announced as soon as possible. Students should report to class at the announced delayed start time. Employees (except for designated employees) are to report to work at the announced delayed opening time.

Cancellation of classes

Cancellation of classes means that classes will not take place. Students are not required to report for class, but faculty and staff are expected to report at the normal time.

Closing of the college

Closing of the College or a particular location means that no classroom or business activity will take place. No student, faculty or staff are expected to report, except those employees specifically designated to report for work. If only specific locations are effected, students and staff of that location will follow directions given in the weather announcements. Students and staff at other locations will report as usual.
