

50502 Right to Require Medical Statement

When it comes to the attention of College administration that the health condition of a student may endanger the health or welfare of others, the College may require said student to present a statement from their health care provider indicating that the health or welfare of neither the student nor others at the College would be endangered by the student's attendance at class or school related activities. Student(s) may be restricted from attending class or school related activities until said statement is produced to the satisfaction of the College President or his/her designee. The reason for the requested medical statement will be explained to the student at the time it is requested.

(Amended 10/23/84; 5/26/15)
