

### **90101 Single Institution Concept and Equality of Campuses**

The College Area is a single institutional entity. Property assigned to campuses, areas or divisions for use belongs to the College Area as a whole.

In the future, regarding spending of funds to buy or lease new College sites or equipment or to build or renovate new instructional facilities, each College Campus location shall be given equal consideration to insure the same high quality of facilities.

(Adopted 7/26/77)
