

## **90202 Priorities for Use; Designation of Facilities and Property Not Available for Use**

- (1) Except as may be otherwise provided in Board Policy or otherwise directed by the Board of Governors, the College President (or the President's designee) shall establish the priorities of users and the scheduling of uses of College facilities and property.
- (2) College Users shall have priority for the use of College facilities and property, and educational programs at the College shall have the highest priority for the use of College facilities and property. As used in Board Policies 90201 through 90210, "College Users" includes users of facilities and property for the College's own educational and other purposes and activities, as well as uses for College-sponsored, College-affiliated, and College-recognized activities (including use by student organizations granted recognition by the College President, the President's designee, or the Board of Governors). "College Users" also includes members of the Board of Governors and students and employees of the College, as well as employees, officers and directors of the Metropolitan Community College Foundation, when requesting to use College facilities or property for a purpose described in this paragraph.
- (3) College Users shall have priority over Community Users requesting to use College facilities and property. As used in Board Policies 90201 through 90210, "Community Users" includes all individuals and groups other than College Users (as defined above). "Community Users" thus includes, but is not limited to, other governmental entities, other educational institutions, non-profit entities, for-profit entities, and individuals who are not College Users as defined above. Except as may be otherwise provided in Board Policy or otherwise directed by the Board of Governors:
  - A. The College President shall not allow any Community User to use any College facility or property for any revenue-generating activity of a for-profit individual, organization or entity, except as an incident of the College's own activities (such as contracted operation of bookstores, food and coffee services, vending machines, or other auxiliary services).
  - B. The College President shall not allow any Community User to use equipment or other personal property owned by the College, except for such uses as might be approved by the College President (or the President's designee) that are incidental to use by the Community User of a College facility or of College real property (e.g., use of chairs in a room).
- (4) The President (or the President's designee), or the Board of Governors, may designate:
  - A. specific College facilities and property that will not be made available for use by Community Users and student organizations at any time;
  - B. dates, days and/or times of day during which no College facilities or property will be

made available for use by Community Users and student organizations; and

- C. dates, days and/or times of day during which specified College facilities or property will not be made available for use by Community Users and student organizations.

Nothing in this subsection (4) shall limit or restrict any other authority granted to the President under Board Policies 90201 through 90210.

(Amended 3/27/01; Amended 02/26/08)
