

Transfer Guide: MCC Liberal Arts Transfer (LATAS) to NWU Bachelor of Science in Exercise Science (pre-Athletic Training)

This Pathway is designed to help students earning an Associate of Science degree in Liberal Arts Transfer (LATAS) transfer into the Bachelor of Science in Exercise Science (pre-AT) at NWU. Students are on track to apply to the Master of Athletic Training (MAT) program during their first year at NWU, and once admitted will begin graduate courses in their fourth year. Students who follow this pathway are in position to complete a Bachelor of Science and Master of Athletic Training in three academic years after transferring.

Some guidelines for this Pathway:

- Students must have a cumulative college GPA above 2.0 to be accepted to Nebraska Wesleyan University.
 - Students will need a minimum cumulative (all college) 3.0 GPA to apply for the MAT program.
- Students must complete the Pathway coursework with grades of C or higher in each course.
 - Students must complete 50 athletic training observational hours supervised by a certified athletic trainer before beginning the MAT Program.
- Students who follow this pathway will transfer a total of 94.5 quarter credit hours, which is equivalent to 63 semester credit hours at NWU.
- Students who choose not to apply for the MAT can finish the Bachelor of Science in two years at NWU (four full-time semesters).
 - Students who transfer before completing courses or requirements in this pathway may be able to complete courses after transferring and stay on track. Consult an NWU admissions counselor for guidance.

General Transfer Policies:

- MCC Courses with numbers below 1000 will not transfer.
- NWU can transfer a maximum of 96 quarter hours (64 semester hours) from community colleges.
 - 4.5 quarter credits transfer as 3 semester credit hours; 6 quarter credit hours transfer as 4 semester credit hours.
- Students must complete a minimum of 126 semester credit hours to earn a bachelor's degree from NWU. Transferrable courses which do not meet degree requirements (aka "elective credits") still count toward this 126 and are marked on the pathway as "credit toward graduation."
- Students should work with their advisor when selecting courses for the AS. This guide offers recommendations for transferable courses and is not intended to be a substitute for advising at MCC.
