1. General Principles

The process of employing qualified individuals is vital to the success of the College. The employment procedures used by the College have been developed to assist individuals involved in this process to understand and accomplish their respective roles. It is the policy of Metropolitan Community College to comply with applicable federal, state and local laws and regulations regarding Equal Employment Opportunity. The College is committed to ensuring that recruitment/hiring decisions are made without regard to race, color, national or ethnic origin, religion, age, gender, sexual orientation, gender identity, transgender status, disability, marital status, status as a protected veteran (disabled, recently separated, active duty wartime or campaign badge, or Armed Forces service medal), or status in any group protected by applicable federal, state, or local law, ordinance, or regulation, except where required by bona fide occupational qualifications.

The guiding principles underlying the employment process are:

- A. Recruitment/advertising efforts will occur in a manner that reaches out to attract a diverse, qualified pool of applicants.
- B. Positions are to be filled using an equitable search process.
