

20202 Staff Communications to the President

The President of the College is responsible for the efficient operation of the College. He or she may delegate some of these responsibilities to other administrative officers. Staff members who wish to bring a matter to the President's attention should first consult with the administrative officer to whom authority over the matter has been delegated. If they are unable to resolve the matter at this level, they are invited to make an appointment with the President.

(Amended 06/24/14)
