

40103 General Academic Transfer Education

The general academic transfer education program shall be designed to meet the need for courses that may be transferred into baccalaureate degree programs. The courses encompass the common information, skills, and attitudes needed by every individual to be effective as a person, a member of a family, an employee, a consumer, and a citizen of a multi-cultural world.

Students who plan to enroll in four-year degree granting institutions after leaving the College will be encouraged to enroll in those general academic transfer courses which might be transferred to four-year institutions.

(Amended 11/20/84; 12/17/96)
