

## **50201 General Requirements for Admissions**

The College is an open admission institution and persons who are high school graduates, or the equivalent, or who are at least 16 years of age and able to benefit from a program or course of study offered at the College, are eligible to enroll. Persons not meeting these requirements may apply to the College for exemption from admission requirements. College admission is open to both residents and non-residents of the State of Nebraska and the College Service Area. Individuals are eligible to participate in College programs on either a full-time or a part-time basis.

Any person denied admission to the College will be afforded the opportunity to appeal such a decision through procedures that are approved by the President and that provide them the full due process of law to which they are entitled.

(Amended 10/23/84; 4/28/15)
