Values-Based Strategic Hinge

There is a “strategic hinge” which exists, linking the attributes and benefits of life in the Omaha–Council Bluffs Region to the people

Identifying the rational and emotional drivers of this hinge is the purpose of “values” research.
Omaha-Council Bluffs Values:
High Taxes (22%) & Crime (18%)
Executive Summary
Omaha-Council Bluffs Resident Values

Nearly a quarter (22%) of respondents identified the high level of taxes, including property and state/local/sale, as the most or second most area of concern for residents.

High Level of Taxes

Taxes: Property taxes and the lack of bang for the buck for what we pay. Decreases disposable income and reduces saving opportunities while increasing thoughts of where is my money going. Purchasing a larger house or upgrades to the house because it will increase the assessment. I am limited in what I would like to do to better my situation.
Executive Summary
Omaha-Council Bluffs Resident Values

Nearly one-in-five (18%) identified crime as a major factor impacting quality of life in Omaha-Council Bluffs. Gang activity is also a big concern and viewed as a heavy contributor to crime levels.

Too Much Crime

Crime, there is so much of it in North Omaha, no value of life. As a single mother, I do whatever to make sure my son doesn't fall prey to senseless mess. My kids can't go to certain parts of North Omaha at night even if it's a family member home. Can't fully enjoy family. It's just plain senseless.
Omaha-Council Bluffs Values: Low Cost of Living (9%)
Executive Summary
Omaha-Council Bluffs Resident Values

Key values to protect and promote are derived from the low cost of living and affordability that residents currently enjoy.

Low Cost of Living

We are able to afford a very nice lifestyle with a standard rate of pay. It allows us to eat out more, go to more entertainment, and worry less about the financial impacts of leisure expenses. This gives me a sense of security.
Region residents prefer growth strategies focused on centralizing jobs and shopping close to residence, encouraging a range of housing options and infusing existing cities and towns.

Q765: Thinking about the projects, renovations, new elements, or considerations for future growth and development of the Omaha-Council Bluffs region, please tell me how important each of the following is for the region. Please use a scale where a 1 means “not at all important” and a 10 means “extremely important.”
Three times as many residents prefer infill of existing areas over new growth in outlying communities.

Smith believes that the region should begin focusing new growth and development in the urban center, existing towns, and in parts of the city that need to be revitalized or redeveloped.

69% Exactly like Smith
25% Somewhat like Smith
36% Strongly like Smith

Jones believes that the region should begin focusing new growth and development across the region into new areas and communities where there hasn't been much development before.

8% Exactly like Jones
13% Somewhat like Jones
7% Strongly like Jones

18-34 year olds most likely to agree with Smith and infill strategy (74%)

Neither: 11%
Nearly all believe having a plan for regional growth in the region is important. More than half feel the Omaha-Council Bluffs region has preformed ‘good’ or ‘excellent’ in this area.

Importance of Having a Vision or a Long Range Plan for Growth in the Region – Top 2 Box (Extremely/Very Important)
Scenario A

In Scenario A, we will continue to grow and decline much the same as we have in the recent past. Areas of the urban core will continue to lose population, as westward expansion continues in Douglas and Sarpy counties.

Scenario B

In Scenario B, the highest growth occurs in central Omaha and Council Bluffs, and over 40% of new growth takes place in existing urban and suburban areas, making efficient use of road and water infrastructure.

Scenario C

In Scenario C, population and employment growth are focused in the core, revitalizing North, South and Midtown Omaha and Council Bluffs. Sarpy County and western Douglas County see some moderate growth. The region makes significant transit investment to serve the bustling central city.

Scenario D

In Scenario D, new jobs are located near urban, suburban and rural communities to reduce long commutes and revitalize existing neighborhoods and towns. Infill and redevelopment help to build walkable communities and main streets across the region.
Though scenarios B, C, and D are all rated highly, when forced to choose only one, Scenario D is most preferred for the region.
