DETERMINATION OF BENEFITS

1. General

Once the qualifying criteria have been met, the number of discounted tuition credit hours available to an adjunct faculty or his/her eligible dependent will be determined by the number of credit hours taught by the adjunct faculty during the previous academic year. For example, if an adjunct faculty teaches 9 ECH during the previous academic year, that adjunct faculty member and his/her qualifying dependents would be eligible for a combined total of 9 discounted ECH during the current academic year.

2. Withdrawal from class
Tuition discount credits will be reissued by the Business Office according to the College’s refund schedule. For example, if the adjunct faculty or eligible dependent drops or is withdrawn from a 4 credit hours class during the 50% refund period, 2 hours of tuition discount credit hours will be available for future use. A current Academic Progress Report must be attached to the next request for discounted tuition if the credits are to be reused.

3. **Maintaining Eligibility For Benefits**

   Consistent with Board of Governors’ policies, an eligible employee who fails to complete six months of continuous employment will be required to remit to the College any tuition benefits his/her dependents received.
