How did you hear about that scholarship?
Mcneb.edu

How has this scholarship helped you achieve your goals?
I have been able to work while going to school and build up my savings account to prepare for the future. These scholarships have been a major incentive to continue forward and focus on finishing my degree.

Do you collect anything?
I have many orchids (more than 50) and the collection continues to grow.

If you could invite one person from the past for dinner, who would you invite and why would you invite them?
My grandmother, who passed away in 2011. She was the most influential person to my childhood and today. I have more similarities to her than any of my other family members.

What do you do for fun?
I like to tie flies (for fishing), learn new things, make and build things—especially if it involves working with my hands, use my telescopes and occasionally go fishing.

How has this scholarship helped you achieve your goals?
I want to proceed in becoming a chef.

What motivates you to work hard?
The struggles I have been through in life. Teachers told me at a young age that I would never amount to anything. They even said I should stop trying due to the fact I would never graduate. This helps me move forward knowing I have proved them wrong.

What accomplishment are you most proud of?
Making a four-course meal for one of my class assignments. This boosted my confidence.

What do you do for fun?
Hang out with friends, dance, watch movies - mostly scary movies.

What is your favorite kitchen appliance?
Stove, a place where the magic first started.
How has this scholarship helped you achieve your goals?
I have always wanted to be a full-time student (I know might sound crazy). I couldn’t afford it though, having to work full-time to pay my bills. When I received the letter in the mail, I just started crying and was in shock. Because of the scholarship, I will hopefully be done with school by fall 2020. I was able to take the classes I needed to get through and now hopefully have my associate degree before I have to move with my husband, as he decided to join the Air Force.

What motivates you to work hard?
What motivates me to do hard work is my family. There is a good chunk of my family that has told me I am not good enough or smart enough to go to college and I would never make it. Here I am today, 22 years old, I have received two scholarships, joined the Kappa Beta Delta International Honor Society and I have been on the Dean’s list at least four times. I am making myself proud and proving people wrong.

Do you collect anything?
I love to collect pig items. I have so much stuff for my kitchen that has a pig on it or is shaped like a pig. I have pigs all over my bedroom (my husband hates it). Someday, my dream is to save up enough money to buy myself a pet pig. I just love pigs.
### Congratulations, MCCF Graduating Scholars!
