This opens an MLA citation. You will need to make the following corrections:

- Follow MLA guidelines when capitalizing the title

- Omit the name of the database publisher (Statista)
- Precede the URL with MCC's proxy server coding: **login.ezproxy.mccneb.edu/login?url=**
- If the URL includes a terminal slash – a forward slash at the end - you can omit it if the URL works without it.
- If the URL takes up more than one line, do not insert spaces or hyphens to force a break. Use your computer's **Enter/Return** key instead.
