

Change of Educational Level/Major

Changing your educational level means you successfully passed the certificate of achievement award or ESLX classes, and you are prepared to enroll in the next level. Complete and submit this form, an admission form, a financial affidavit and a bank statement in English dated within 6 months in U.S. dollars. Meet with a Counselor, Advisor, Enrollment Navigator, or the Coor. of ISS to verify your completion in Section II after your grades are posted. If you are changing to General Studies, please ask a Counselor, Academic Advisor, Enrollment Navigator, or the Coor. of ISS to complete Section III. Then contact ISS to complete Section IV and to update your I-20, if approved. You will need to have your SEVIS record/I-20 finalized by the first day of your next classes. After the first day of classes, your SEVIS record will need to be reviewed by the government to adjust the program start date. You will need to be enrolled full time in the first quarter of your program, unless you have authorization from ISS.

Changing your major means changing from a certificate to another certificate OR changing from an associate degree to another associate degree without finishing the coursework for the program you were just in. You do not need to meet with a staff member complete Section II. If you are changing to General Studies specifically, please meet with a Counselor, Academic Advisor, Enrollment Navigator, or the Coor. of ISS to complete Section III. ISS will complete Section IV and update your I-20, if approved.

IMPORTANT NOTE: As an F-1 student, you may change programs the day after the last day of the quarter up until the day before SEVIS registration. Contact ISS if you have questions.
