

All People are Valued and Respected at MCC

In an effort to ensure that all persons feel safe and comfortable on MCC campuses, Equity and Inclusion provides Safe Space training to the college.

We hope this effort will demonstrate to prospective and current students, faculty, staff, and the broader college population that those identifying as LGBTQIA+ here at Metropolitan Community College are welcome.

This specialty training is for our staff and faculty who have publicly chosen to be an ally and to provide a safe space for anyone who may feel the need, based on their LGBTQIA+ identity. These spaces within the campuses are distinguishable by the display of a magnet that is prominently visible in designated areas. Staff and faculty in these locations are equipped with the training to be a support to the LGBTQIA+ members of our community.
